Does ANYONE have ANY idea what has happened to our friend,
Jan Axing, SM5GNN ??

He was a regular here on the group and via e-mail until about a month ago, and then suddenly disappeared. I would like to get in touch with him, but don't know how any more and his past 2 e-mail addresses do not result in any replies when I write to them now.

73 to all,

Subject: Question about 7.040...

Hello all,

I've been listening to the QRP QRG the last couple of days at 7.040 and I am hearing a station sending nothing but a long series of 'F's - never an ID or anything else. It's now 18:52 and he's there - been there all morning. Anyone else heard this?

Any idea what this is? I thought beacons had to send a callsign at some point. If it is a beacon, I don't

have it on any beacon list. Anyone know where it is
if in fact it's a beacon?

Thanks,

Dave WB7AWK
